Dear Sir:

Applicants agree in part with the Examiner's statements of reasons for allowance set forth in the Office Action of May 3, 2006 and in the Notice of Allowance of October 10, 2006 in that the prior art of record fails to disclose, teach or suggest the subject matter of claims 27 and 32-35. Applicants note, however, that the Examiner's statement fails to address all limitations of the allowed claims. For example, certain claim limitations were not discussed in the Examiner's Reasons for Allowance, including those in most of the allowed claims, each of which defines a unique combination of features not shown or suggested by the prior art, providing additional reasons for allowance of each claim.

Applicants respectfully submit that the scope of the claimed invention should not be limited by the Examiner's statement, but rather the scope of the claimed invention should be based on the actual language of the allowed claims.
